"Strike while the iron is hot.
Pause and the iron is cold;
If you strike too late on a hardened plate
The world will never hold.

"Seek, and success will follow;
Wait, and it passes by—
Be quick to grasp, then hold it fast,
And trust for a better try.

"Serve, and the world serves with you;
Loaf, and you loaf alone;
This strenuous world is a continuous
whirl—
It offers no room for the drone.

"Life is an undertaking.
Death is a silent thought;
So let life's light illumine the night
With the service you have wrought.

WISDOM chooses to endure the
ills it has rather than to fly to
those it knows not of!

Correspondents will please
write their names on their copy
so we may know to whom to credit
it.

CARRIE Nation—poor old crazy
Carrie—is dead! Dead! and the
"rum demon" still lives—even
in Kansas!

BETTER a crust with content-
ment than sumptuous fare and
fine linen with discontent gnaw-
ing at your heart!

VELEXATIONS and sorrows come
to all. Some time the proudest
man is going to need sympathy
and charity. Why be vindictive?

Now that hot weather is here
we can not be too careful with
our premises. Breeding places
for flies and mosquitoes should
be very promptly suppressed.

Remembering the lesson of the
past several "lean years" our
farmers should see to it that ev-
ery blade of grass or corn-fod-
der is carefully put away for
feed. It will every bit be need-
ed.

THE hot dry weather cut the
corn crop very short in this sec-
tion, late corn being almost a
complete failure. The earlier
plantings matured a much better
crop, some reporting almost a
full crop.

It is to be regretted that our
citizens do not take more in-
terest in the work of a Commer-
cial Club. Much good for the
town could be accomplished
through the proper kind of co-
operation. Let's get together on
this.

TION, covering every
field of the world's thought,
action and culture. The only
new unabridged dictionary in
many years.

Words; more than ever
before appeared between two
covers. 2700 Pages. 6000 Il-
lustrations.

Because it is the only dictionary
with the new divided

a single volume.

Courts, Schools and
Press as the one supreme au-
thority.

Success. Let us tell
you about this new work.

AN anonymous writer takes up
nearly two columns in the cur-
rent issue of the spiterag in as-
sailing the Anvil Herald's posi-
tion on prohibition. Now we
will bet a glass of beer against a
pretzel—and consume both no
matter which one wins—that the
author of the article is some fel-
low who is too short to even take
advantage of our ten cent rate
for the campaign to prohibition-
ists, and borrowed the very pa-
per from which he quotes. But
be that as it may, if he is sincere
about wishing to promote the
cause of prohibition and to point
out to an erring brother his errors
he is welcome to come into these
columns over his own signature
and we will debate the issue with
him until one or the other is sat-
isfied. If he is the Christian that
his article tries to create the im-
pression he is he will present us
without unnecessary delay with
the article in question over his
own signature and the assurance
that our reply will be published
also in the same medium through
which he gave it publicity. Fair,
isn't it? But of course, if he is
merely a mercenary, seeking to
add to the falsehood that we are
an enemy to Christianity the fur-
ther accusation that we are "fight-
ing against God", he will continue,
bushwhacker-like, to shoot from
ambush.

THE spiterag crawled out of its
silence long enough this week to
assure us that the ostensible ed-
itor of it may be and again may
not be the author of its editorial
dope. A kind of a now-you-see-
him and now-you-don't responsi-
bility! It further assures us that
if it could not argue a difference
and stay out of personalities it
should never attempt a discus-
sion. This would be assurance
that it would never attempt to
discuss prohibition again were it
not for the fact that something
"dark" in the not "distant past"
has proved its assurances unreli-
able; for the whole issue of
prohibition hinges upon the per-
sonal right of a man to take a
drink of liquor, and you can no
more discuss it without making
it a personal question than you
can rise on your feet and fly. The
trouble with the spiterag is
that it wants to discuss the other
fellow's personality but feels ter-
ribly shocked when its own comes
under review. For instance, af-
ter its declaration to the contrary,
it couldn't stop until it had
by innuendo accused the editor of
this paper of being possessed of a
"grouch"! Can't stay consist-
ent through a single para-
graph! But such was ever the
fatiuity of him who would regu-
late by law the personal affairs
of another.

ALL anti-prohibitionists have
to do to snow the Statewide pro-
hibition fetich under an ava-
lanche of votes is to remember
the date and go to the polls and
vote as their conscience dictates.
But every man must do his duty.
There will be no stay-at-homes
among those who are trying to
take away from the respective
communities of the state the
right to regulate their own af-
fairs in their own way, and every
vote opposed to this usurpation of
rights is needed. Don't forget
July 22nd!

Don't make a habit of lend-
ing your paper to your neighbor.
You will do him a greater favor
by inducing him to become a
subscriber. tf.

AFTER many years agitation,
the old Populist demand for the
election of United States Sena-
tors by direct vote of the people
has at last passed both branches
of the national congress and now
the proposed amendment will be
submitted to the various state
legislatures for ratification or re-
jection. Slowly but surely the
composite intelligence of the
whole people sift the chaff from
the grain of every proposition
and hold fast to that which is
good, casting the chaff away.

THE spiterag gives space to a
contribution attacking the Anvil
Herald's position on prohibition.
It is a recognized principle of
newspaper ethics that when the
columns of a paper are opened to
a communication the party at-
tacked is entitled to a like amount
of space to defend himself. Will
we be accorded this privilege?
We pause for a reply, either per-
sonally or through its columns.

Deafness Cannot be Cured

by local applications, as they cannot
reach the diseased portion of the ear.
There is only one way to cure deafness,
and that is by constitutional remedies.
Deafness is caused by an inflamed con-
dition of the mucous lining of the
Eustachian Tube. When this tube is
inflamed you have a rumbling sound or
imperfect hearing, and when it is en-
tirely closed, Deafness is the result, and
unless the inflammation can be taken
out and this tube restored to its normal
condition, hearing will be destroyed
forever; nine cases out of every ten are
caused by Catarrh, which is nothing
but an inflamed condition of the mucous
surfaces.

We will give One Hundred Dollars
for any case of Deafness (caused by
catarrh) that cannot be cured by Hall's
Catarrh Cure. Send for circulars free.

A Dead One.

"I thought you wanted stories of
real life!" sneered the disappointed
author. "I do," snarled the editor;
"but after reading the first paragraph
of your story I could see its finish."

Local Firm Will Continue Valuable Agency.

W. H. Windrow of this city has just
closed a deal whereby he will continue
to be agent for Zemo—the well known
remedy for Eczema, Dandruff and all
diseases of the skin and scalp.

The extraordinary leap that this clean
liquid external treatment for skin af-
fections has made into the public favor
in the last few years proves its won-
derful curative properties and makes it
indeed a valuable addition to the fine
stock of remedial agents carried by W.
H. Windrow.

He has a limited supply of samples
one of which will be given free to any
skin sufferer who wishes to test the
merit of the medicine. A booklet
"How To Preserve The Skin," will al-
so be given to those interested.

He Can't Help It.

fellow who worries when nobody no-
tices that he has had his hair cut.—

"I was Crippled, could hardly walk and had to Crawl

down stairs at times on my hands
and knees. My doctor told me I
had an acute attack of inflammatory
rheumatism. I was in the hospital
for weeks, but was scarcely able to
walk when I left it. I read about

Dr. Miles' Nerve

bought a bottle and began to get
better from the start, and for the
past six months I have had scarcely
any pain and am able to walk as
well as ever." J. H. SANDERS,

P. O. box 5, Rockaway, N. J.
Few medicines are of any benefit
for rheumatism, but Mr. Sanders
tells plainly what Dr. Miles' Re-
storative Nerve did for it. One
ounce of salicylate of soda added to
one bottle of Nerve makes an ex-
cellent remedy for rheumatism,
which is now known to be a nerv-
ous disease and therefore subject to
the influence of a medicine that acts
through the nerves, as does

Dr. Miles' Nerve

Sufferers from rheumatism seldom
fail to find relief in the use of
Dr. Miles' Nerve, with salicylate
of soda.

the return of the price of the first bottle
if it fails to benefit. At all Druggists.

"Let us Pay our Taxes in Money And Not in Boys."

This was written on a banner displayed at a State-wide Prohibition rally not long since. It was and is a noble sentiment to which every man with red blood in his veins can subscribe. We most heartily do, and we would not give one boy for all the taxes of the universe. But the trouble is that the motto is wrong in conception and in application. That is to say, it has no earthly place in this campaign. Why? Because there is no proposition before the people to pay taxes in boys. Not a bit of it. It is an issue thrown into this campaign ill advisedly, or for the purpose of rushing the tender of heart pell mell into the prohibition camp. Calm and dispassionate reasoning and not sentiment should control. We must carefully, candidly and frankly look at the probable results before we leap. If we decide to increase our taxes one million dollars or more each year as we would be in adopting State-wide prohibition, let us be certain that we will save our boys by it. Let us not buy a pig in a poke. For if we make a mistake now we cannot correct it. Texas has never had State-wide prohibition and we can only judge of it from the experience of other States. If it has proven successful in other

States it will do so in Texas. If it has saved the boys in other States it will do so in Texas. While on the other hand if it has failed to do these things it will fail in Texas. The plain unimpeachable record is, that of 29 States that have considered State-wide prohibition, 21 States have repudiated it because it was a flat failure. Of the other eight, Maine, where it has been tried the longest, will vote to repeal it in September. We make this statement because of the fact that a Governor and a Legislature was elected on that issue. In still another, Kansas, the fight for resubmission is now being made with a great show of success because of the fact that whiskey selling and whiskey drinking has become notorious. In Tennessee there are at least fifteen hundred more whiskey selling and more whiskey drinking places than before State-wide prohibition. The licensed, regulated saloon has been succeeded by the doggerly, the dive and the bootlegger. Under the regulated saloon system boys and girls could not visit them and buy whiskey. Yet under State-wide prohibition, as shown by the sworn statements of Memphis prohibitionists, boys and girls of tender ages visit these unlicensed doggeries and buy and drink freely of the intoxicating beverages so openly sold in that State-wide State. So we

ask what will it profit us if we increase our taxes to the extent of nearly one million dollars each year and at the same time multiply the places where our boys are made drunkards and our girls are debauched?

Remember that the only issue before the people is, shall we exchange our perfected local option system for experimental State-wide prohibition? Those living in counties where Local Option (prohibition) prevails have all to lose and nothing on earth to gain by swapping Local Option for State-wide prohibition. Why take the Chance? (Advertisement.)

Has That Been Your Experience Taking Calomel for Constipation? Try Dodson's Liver-Tone Next Time.

Many people take calomel to cure constipation, and it does cure it for one day, but two or three days later they are sicker than ever. That is one of the after-effects of calomel.

W. H. Windrow's drug store will not guarantee calomel to be harmless. But we do guarantee Dodson's Liver-Tone to be a perfect substitute for calomel. Dodson's Liver-Tone will cure constipation and bilious attacks and keep them cured, by stimulating and toning-up the liver to do its best work. It is a vegetable liquid with a pleasant taste and is harmless to children as well as grown people. It livens up the liver by natural methods, does not act so strongly as to weaken the body, but is safe and sure just the same. You can buy a bottle to-day from W. H. Windrow with the assurance of your money back if it fails in your case.

Women's Secrets

There is one man in the United States who has perhaps heard
more women's secrets than any other man or woman in the
country. These secrets are not secrets of guilt or shame, but
the secrets of suffering, and they have been confided to Dr.
R. V. Pierce in the hope and expectation of advice and help.
That few of these women have been disappointed in their ex-
pectations is proved by the fact that ninety-eight per cent. of
all women treated by Dr. Pierce have been absolutely and
altogether cured. Such a record would be remarkable if the
cases treated were numbered by hundreds only. But when that
record applies to the treatment of more than half-a-mil-
lion women, in a practice of over 40 years, it is phenomenal,
and entitles Dr. Pierce to the gratitude accorded him by women, as the first of
specialists in the treatment of women's diseases.

Every sick woman may consult Dr. Pierce by letter, absolutely without
charge. All replies are mailed, sealed in perfectly plain envelopes, without
any printing or advertising whatever, upon them. Write without fear as with-
out fee, to World's Dispensary Medical Association, Dr. R. V. Pierce, Pres.,

"Atheists" Converted.
A number of Serbian conscripts, on
entering Belgrade barracks to serve
their time, announced themselves as
atheists so as to avoid attendance in
church. The commander got them to
clean out the yard and stables every
Sunday morning while their comrades
went to mass. The atheists have
now asked to be instructed with a
view to conversion to the national
creed.

Doomed to Torment.
Mr. P. C. Keever, Aberdeen, Miss.,
writes: "For years I suffered from a
form of eczema which made life a bur-
den. I thought I was doomed to per-
petual torment here below, but your
Hunt's Cure rescued me. One box did
the work, and the trouble has never re-
turned. Many, many thanks." Hunt's
Cure is guaranteed. Price 50c.

Electric Kissing.
There seems to be another new
thing in electricity. The little man-
icure girl in one of the recent plays
says to her admirer: "Yes, you did
kiss me! You kissed me seven times
—four times direct and three times
alternating."

Gas in the stomach comes from food

Not So You'd Notice It.

he "would go broke" to help his best
friend out of an ugly hole, but he
never goes "to pieces" so you might
listen or notice it.

HERBINE
For the Bowels
A Cure for Chronic Constipation, Torpid Liver
and Irregular Bowel Movements.
Constipation is the most common disorder of the bowels. It
affects both sexes and all ages but is more prevalent among
women because their duties in the household require less physical
exercise than the occupations of men; therefore women suffer
most from its baneful effect.
A constipated person is an easy victim when exposed to any
serious disease—Typhoid Fever, Malaria, Rheumatism,
Small Pox, Yellow Fever and Bright's Disease gather their annual
harvest of death among those who are habitually constipated.
Even though they escape these diseases, such persons are always
ailing more or less. They have headaches, bad digestion, dizzil-
ness, vertigo (blind staggers), sallow complexion, flatulence, loss
of strength, and no energy at all. Herbine has a most admirable
effect in the bowels; it is cooling, purifying and regulating. It
puts a prompt check on biliousness, wind in the bowels, nervous-
ness, heartburn, bad breath, low spirits, drowsiness in the day-
time and nervous wakefulness at night.
Price 50c per Bottle.

Indispensable in Emergencies

THE sickness of a valuable animal on the farm demands prompt remedies.

It's a case for the veterinary—a case where minutes count. That's where the Bell Service shows its value to the farmer.

By means of the telephone the veterinary is reached, and he at once tells the farmer what to do until he arrives.

No far-sighted farmer gets along without the protection of the Bell Service.

He can never tell when it is going to save him from serious loss. Besides, he has daily proof of its usefulness.

Housekeeping and Business.
There should remember that when daughters become wives they know values, not only the values of money and clothing, but the values of patience, of perseverance and of forbearance. Unless they have these, how are they to succeed in life? How can they be the man whose future lies to the extent in their hands, to make a future worth while? In housekeeping there is just as much business method required as in the management of a large corporation. So things to see to, a certain amount of money to manage, so many things to get at by the end of each

Anticipation is Worst.

It is better to suffer and have it than to fear.

Russians demand highly decorated sewing machines, and the more lacquered work in flowers and fantastic embellishments the better the article pleases. Only by close study of the wants of the people and by adapting the appearance of the machines to their peculiar tastes, such as bright colors, gaudy decorations, lacquering, nickeling and engraving, will American manufacturers succeed. While the solid golden oak tables and drawers of light color are suitable to the American taste and western Europe, they do not appeal to the Russians, who require that the woodwork be of dark colors, such as mahogany or cherry, even though it is veneer.

LADIES OPPOSED TO PROHIBITION.

Colorado Springs, Colo., Returns to License With Their Aid.

VOTE CAUSES SURPRISE.

Prohibition Workers Astonished to Find That Female Voters Turned the Tide Against Them—A Bitter Campaign of Three Months.

Colorado Springs, Colo., June 1.—After a campaign lasting 3 months which was filled with much bitterness and ill feeling on both sides, the climax of the long battle between the license and the prohibition factions was reached and passed on April 4, when Colorado Springs, the popular summer resort of the state, which had hitherto been considered one of the perpetual dry towns in that region, voted to allow the sale of liquor in drug stores, hotels and in clubs of five years' standing—and wonder of wonders—the result of the election was directly due to the ladies.

The campaign was a bitter one throughout and the last day proved one of great strain and excitement to every citizen of the town. Never before had so much feeling been shown in an election and the women of the town proved one of the strongest factors in the victory for the antis. When the result of the election was made public late in the evening it gave the antis a margin of 932 votes in their favor.

Colorado Springs has been dry for two years, and during that time the business men have worked hard to restore license and regulation.

Women Defeat Prohibition.
But it was the women of Colorado Springs who really saved the day for the antis. It was thought by the prohibitionists that the female voters of the Springs would surely vote for a dry town, but to the surprise and consternation of the dry camp, nearly every woman voter placed her ballot for the antis.

The drys had put great faith in the ability of the fair sex to swing the election in their favor, but the feminine portion of the little summer resort, disregarding the advice and pleadings of ministers and leaders of the prohibition campaign, took sides with brothers, husbands and fathers, joined them with their belief that the regulation and license system was best to promote temperance. This heavy vote on the part of the female contingent really turned the tide of battle in favor of the antis.

Both the daily newspapers of the city were on the license side. The Gazette has supported prohibition two years before, but took the position that the experiment had been a failure.

Why Town Reversed Itself.
The campaign for the prohibitionists was conducted by several of the leading ministers of the city. So far as they were able they used the churches as political clubs in the organization of the voters in favor of prohibition. They got up a parade of several thousand Sunday school children, and pursued the usual tactics of such campaigns. They were unable, however, to carry their entire congregations with them because many of the most influential members of the churches were men and women who had become convinced that prohibition had not improved the morals of the city that it had injured business, that it was increasing taxes and depreciating property values.

W. J. BRYAN'S ATTITUDE

Voted Against State-Wide Because He Thought License and Local Option Best.

In answer to questions about my record on the subject, I have stated that, so far as my personal habits go, I am a teetotaler, never having used liquor as a beverage; but in 1890 I voted against the state prohibition amendment because I thought the license system we had, with local option was better suited to the conditions we had to meet in our state.—Interview with W. J. Bryan in Baltimore News, May, 1908.

Arrests in Prohibition Maine.
Augusta, Maine, June 1.—Of 297 arrests made in Augusta, Maine, during the year 1910, City Marshal Geo. E. Fletcher reports that 263 were for drunkenness. This is a greater percentage of drunkenness than will be found in any Texas city. Maine enjoys state-wide prohibition.

REMEMBER THE DATE, SATURDAY, JULY 22.

The Demagogue

The passing of the demagogue has marked an important epoch in the progress of Texas. Like the desperado and the cowboy he has had a thrilling and exciting career and like them he has been compelled to give away to the trend of civilization.

He was the product of the times and the harder the times the more perfect the product. A Prince Albert coat, a slouch hat and a strong pair of lungs and he was ready for the hustings to warn the people against the approach of capital. He thrived best upon strife and dissension and his principal occupation was in shrewdly arraying class against class and then leading the stronger against the weaker force. With star defining audacity he would publicly attack the character of a prosperous industry and argue its destruction with all the logic and sincerity of a Pilgrim father pleading for the burning of a witch. He was a mixture of ignorance and genius, and would hunt out prosperous corporations and make their success a springboard on which he could bound into the spotlight by denouncing capital as sapping the life blood of the people and then proceed to argue hypothetically the cause of the down-trodden masses with the earnestness of a starving lawyer pleading his first case.

He was a patriot for applause and a politician for revenue and he sought the goal of his desire with the intuition of a gifted criminal and he would track his prey with the instinct of a hungry beast. But he is gone and may his shadow never again darken the threshold of Texas.

Good Roads

A farm with bad roads is worse off than a farm with bad water. It is hard to understand how a farmer, otherwise enterprising, should be backward in building roads. Travel through some of our rural districts and you will find farmers with blooded stock, land highly cultivated and premises well kept and with public highways that bog up an empty wagon six months in the year. Build roads and keep up with the procession.

Back to the Soil

There is too much money going for the luxuries of city life and not enough for country improvements.

The cry of "back to the soil" should apply to money as well as to men. It takes the coin of the realm to improve farms, build public highways and make farm life profitable and attractive.

Mrs. Murray, Muncie, Ind.

A good reliable family remedy—something that every member of the family can use when the occasion requires—is something worth knowing about: Mrs. Murray of Muncie, Ind., has had Dr. Caldwell's Syrup Pepsin in her house for over five years, and when one bottle is used up she gets another. It is invaluable in constipation, indigestion and other stomach, liver and bowel trouble. It is absolutely guaranteed to do what is claimed, and if you want to try it before buying, send your address for a free sample bottle to Pepsin Syrup Co., 119 Cladwell Bldg., Monticello, Ill. It is sold by all dealers at 50c and \$1.00 a bottle.

Expected It.

The crazy vehicle went bumping over the uneven pavement. "This is enough to drive a man to drink," groaned the passenger inside. "Yessir," said the cabdriver. "Most of the fellers that hires it think it's good enough for that. Any particular place you was wishin' to stop at right now, sir?"

A Charming Woman.

is one who is lovely in face, form, mind and temper. But it's hard for a woman to be charming without health. A weak sickly woman will be nervous and irritable. Constipation and Kidney poisons show in pimples, blotches, skin eruptions and a wretched complexion. But Electric Bitters always prove a godsend to women who want health, beauty and friends. They regulate Stomach, Liver and Kidneys, purify the blood; give strong nerves, bright eyes pure breath, smooth, velvety skin lovely complexion and a perfect health. Try them. 50c at W. H. Windrow's.

The Sunrise of Life.

Infants and children are constantly needing a laxative. It is important to know what to give them. Their stomachs and bowels are not strong enough for salts, purgative waters or cathartic pills, powders or tablets. Give them a mild, pleasant, gentle laxative tonic like Dr. Caladwell's Syrup Pepsin. It is the one great remedy for you to have in the house to give children when they need it. It is absolutely guaranteed to do what is claimed, and if you want to try it before buying, send your address for a free sample bottle to Pepsin Syrup Co., 119 Cladwell Bldg., Monticello, Ill. It is sold by all dealers at 50c and \$1.00 a bottle.

Even More Tiresome.

"Is there anybody quite as irritating," said a doctor, "as my partner, who invariably comes round after something happens and says, 'I told you so?'" "Yes," replied his friend. "An uncle of mine is quite as tiresome. He never says 'I told you so' in so few words, but always remarks, in a tone of mournful triumph, 'And yet I was wholly unable to make any of you perceive, although it was perfectly clear to my mind, that such would be the inevitable result.'"

Sore Nipples.

Any mother who has had experience with this distressing ailment will be pleased to know that a cure may be effected by applying Chamberlain's Salve as soon as the child is done nursing. Wipe it off with a soft cloth before allowing the babe to nurse. Many trained nurses use this salve with best results. For sale by all dealers.

Los Angeles Heights Addition San Antonio, Texas

ONE MILLION FEET OF SIDE WALK

One of Largest Contracts Ever
Let Here Signed

Improvement work is actively in progress at Los Angeles Heights. A large force of men, between seventy-five and one hundred, are kept constantly at work laying cement sidewalks, their work at present being on Sacramento Street. The owners of this beautiful addition recently let a contract for approximately 1,000,000 feet of sidewalk, which is probably the largest contract of its kind ever made in the South. Another gang of men are digging trenches for the water mains, which will be extended on from Beacon Hill, as Los Angeles Heights adjoins this district on the north.

These large, substantial improvements which are being put through in and around the city are attracting the attention of visitors.

"The activity observable" said a Chicago man yesterday, "speaks louder than words what San Antonio's future will be. Beautiful new homes are going up daily; every train brings prospectors and homeseekers who are buying and building in the city of sunshine and the new-comer realizes that San Antonio is destined to become one of the greatest cities of the entire South."

From the San Antonio Daily
Express, Feb. 15, 1911.

LAYING WATER MAINS TO THE HEIGHTS

Water Being Piped to Recently
Opened Up Residence Addition
Beyond Beacon Hill

Eight-inch water mains are being laid, with fire plugs at street intersections, starting at Magnolia Street and Grant Avenue in Beacon Hill addition, and running north into various parts

of Los Angeles Heights addition, which adjoins Beacon Hill. The Los Angeles Heights Improvement Company are putting in these mains at their own cost and expense, and doing so for the purpose of giving their purchasers the best water service possible, not permitting this enlarged service to cost either the Beacon Hill and Los Angeles Heights residents and purchasers a cent.

The wonderful development in the business section of San Antonio has caused the inhabitants to seek building sites out of the congested districts, and several new additions have been opened up and sold recently. Many Northern people are buying suburban property and building beautiful winter homes, which all goes to show that San Antonio is destined to become one of the greatest and largest cities of the South, with her large trade territory, unexcelled climate and other advantages.

The work of extending city water mains through the Los Angeles Heights Addition from the Beacon Hill Addition has recently been completed, an eight-inch main having been extended from Magnolia and Grant Avenues by the Los Angeles Heights Improvement Company to furnish city water throughout the addition.

Among recent purchasers of lots in Los Angeles Heights are fourteen Houston people who came to San Antonio during the past week. Their purchases of lots totaled more than \$5,000 and other Houston business men have recently bought lots in the addition.
